Contact page					x
Reflections (description of portfolio pieces)					

Content of reflections appropriate					x
Project images are high quality				x	
Spelling and grammar are correct				x	

What was your overall first impression of the website?

I really liked it, clean and elegant

Did you have any technical difficulties as you navigated through the pages and displayed the projects?

I did not

What do you feel are the most effective design elements of this web portfolio?

I liked the about me page with the my journey section with skills and hobbies.

What would you suggest be changed with the design or content of this web portfolio?

I really liked it, I found a typo on the case study page under key design decisions, there is a duplicate quotation symbol (") at the end of 'smart serving size'. And maybe add some padding for the case study/project heading and the page header.
